## EXPERIENCE

RIT Software Engineering

Software Developer Intern | Fall 2025

   

- Optimized user experience and achieved a 36% reduction in page load latency by driving autonomous, end-to-end full-stack feature development in a fast-paced environment
- Containerized services and added orchestration manifests to streamline developer onboarding and CI workflows

MITRE

AI Engineering Intern | Summer 2024

      
 

- Architected an internal semantic search platform using OpenAI and LlamaIndex to orchestrate autonomous AI agent discovery across multi-source enterprise data
- Designed and implemented a unified data layer aggregating multiple API sources into a Neo4J graph to enable cross-source queries for networking
- Accelerated deployment velocity by 60% through container automation and system observability hooks within OpenShift/OKD manifests

Innovation Intern & Developer | Summer 2023

- Engineered RESTful backend APIs and microservices using Spring Boot and MongoDB to power a real-time internal talent and project marketplace
- Designed scalable backend infrastructure supporting 20,000+ active users by provisioning cloud database architectures and integrating AWS S3-compatible storage layers

## PROJECTS

PreconLeague |   

 atauln/PreconLeague

- Launched a full-stack FastAPI/React web app for Magic: The Gathering versioning and discovery; integrated external APIs (Scryfall/Moxfield) with local data caching to ensure low-latency queries and high scalability

PlayTracker |    

 bobbykdhan/PlayTracker

- Engineered an automated trading workflow orchestrating Gemini AI to parse free-form Discord trade signals into structured data orders
- Built execution pipelines using FastAPI and Redis streams for IBKR contract validation, order placement, and Twilio SMS notification delivery

## EDUCATION

Rochester Institute of Technology

BS, Software Engineering

Minor in Database Design • Class of 2026

## SKILLS

### Languages

      
   

### Frameworks & Libraries

   
  

### Databases

   
 

### Tools & Platforms

    
 

## ACTIVITIES

Computer Science House

Member | Fall 2022 – Spring 2025

- Maintained house systems, increasing service reliability for members
- Administered OKD, Ceph, and S3 infrastructure; documented runbooks
- Hosted technical seminars and hands-on workshops to upskill peers
