EXPERIENCE

RIT Software Engineering

Software Developer Intern | Fall 2025

   

- Optimized user experience and achieved a 36% reduction in page load latency by driving autonomous, end-to-end full-stack feature development in a fast-paced environment
- Containerized services and added orchestration manifests to streamline developer onboarding and CI workflows

MITRE

AI Engineering Intern | Summer 2024

    
 

- Architected an internal semantic search platform using OpenAI and LlamaIndex to orchestrate autonomous AI agent discovery across multi-source enterprise data
- Designed and implemented a unified data layer aggregating multiple API sources into a Neo4J graph to enable cross-source queries for networking
- Accelerated deployment velocity by 60% through container automation and system observability hooks within OpenShift/OKD manifests

Innovation Intern & Developer | Summer 2023

- Engineered RESTful backend APIs and microservices using Spring Boot and MongoDB to power a real-time internal talent and project marketplace
- Designed scalable backend infrastructure supporting 20,000+ active users by provisioning cloud database architectures and integrating AWS S3-compatible storage layers

PROJECTS

PreconLeague |   

 atauln/PreconLeague

- Launched a full-stack FastAPI/React web app for Magic: The Gathering versioning and discovery; integrated external APIs (Scryfall/Moxfield) with local data caching to ensure low-latency queries and high scalability

PlayTracker |    

 bobbykdhan/PlayTracker

- Engineered an automated trading workflow orchestrating Gemini AI to parse free-form Discord trade signals into structured data orders
- Built execution pipelines using FastAPI and Redis streams for IBKR contract validation, order placement, and Twilio SMS notification delivery

EDUCATION

Rochester Institute of Technology

BS, Software Engineering

Minor in Database Design • Class of 2026

ACTIVITIES

Computer Science House

Member | Fall 2022 — Spring 2025

- Maintained house systems, increasing service reliability for members
- Administered OKD, Ceph, and S3 infrastructure; documented runbooks
- Hosted technical seminars and hands-on workshops to upskill peers
